

# REXENER

PREMIUM HOT TUBS FROM THE NORTH

# IT ALL STARTED WITH A DREAM

The story of the Rexener hot tubs began with one man's dream. Thinking, planning, manufactured parts, trial and error. This is how the first handmade hot tub was made, from Finnish raw materials, at Sarininkulma in Rekijoki.

At first, the entrepreneur only intended to earn a small amount of additional income. However, once orders started pouring in, there wasn't even time to sleep. By June 2020, nearly 1,400 hot tubs had already been sold all over Finland. Demand for such an excellent product was high, and now the hot tubs are being developed by a top international team.

## Finnish craftsmanship

The premium, handmade fibreglass hot tub found its niche in a market saturated with mass-produced products. Its uncompromising quality and level of finish said it all. Every hot tub manufactured and sold convinced new customers at an increasing pace.

## Unique heater

At the same time as Sarininkulma was hard at work manufacturing hot tubs in Sipoo, Grels "Celle" Ström had the idea to use the Airrex hall heaters' technology to warm up hot tubs. Rexener Bioheater was born. The two men's paths eventually converged, and now their innovations are reflected in Rexener's hot tubs.

## The highest quality hot tubs on the market

Even with all the Finnish "sisu" in play, more than 300 hot tubs in one year began to take its toll on the one-man workshop. The time had come to take the next step towards conquering the world. With Rex Nordic, the one-man workshop became a Nordic team of nearly 30 people, who are now building the story of the best hot tubs on the market for future generations.

## Inspired by northern nature

The colours and material choices of Rexener hot tubs have been inspired by the northern nature. The frame and panelling are made of genuine Finnish wood. The colours of our hot tubs come from the building blocks of the wintry Northern dreamscape – the white snow and the black granite stone of the North, gabbro.

**REXENER hot tubs - uncompromising quality**

# REXENER *Polar*

A HOT TUB, A WHIRLPOOL BATH, A BATHTUB... POLAR IS ALL THIS.

Call it what you will: hot tub, whirlpool bath, plunge bath, bathtub, spa pool. Rexener Polar is all these things. Serenity and a simple bathtub design. The bubbles and modern atmosphere of a whirlpool bath. The warm and refreshing water of a hot tub. All this is crowned by LED lighting, which brings out the colour of the refreshing water.

Handmade in Finland, Rexener Polar is a high-quality premium hot tub. Rexener Polar has a much shorter heating time than a traditional wood-fired hot tub or an electric hot tub. A built-in filter, UV lights and pool chemicals ensure the water stays clean for a long time. Optional pool colours: Gabbro Black or Arctic White. Polar is made of Finnish wood and insulated with polyurethane sheeting throughout.

Easy and quick to heat

Year-round use

Water that remains clean

Jet system

UV lights

LED lights

Colour options:  
Gabbro Black or Arctic

## WHY CHOOSE REXENER POLAR?

<b>Spacious design</b>	Seats up to 8 people
<b>Low water consumption</b>	1,300 litres at its lowest
<b>Water purification</b>	Thanks to the filter and UV light, you can use the same water longer than you could in traditional hot tub
<b>Easy installation</b>	You don't need an electrician. A standard lighting current is enough.
<b>Low power consumption</b>	Works with 10A lighting current, so the applications are virtually limitless
<b>Superior in freezing temperatures</b>	Rexener hot tubs operate at temperatures as low as -30 °C – and we guarantee that the water will always be warm
<b>Easy drainage</b>	If you want, you can empty the tub quickly and easily – for example, when you are going on a trip. You can drain the hot tub with the supplied circulation pump.
<b>Home maintenance</b>	If there's a problem, we'll visit your home to service your hot tub.
<b>Affordable to use</b>	The first heating only takes about 4 litres of fuel. Even after that, consumption is very low.
<b>Saves energy</b>	After you use the hot tub, you can drop its temperature to 20 °C, for example. It only takes about half an hour to increase the temperature to 38 °C again.
<b>Heats with a press of a button</b>	Press the button on the heater once, and Rexener Bioheater will do the rest. Heating can't get easier than this.
<b>Precise temperature control</b>	The automatic thermostat control maintains the desired temperature (0–40 °C)
<b>Quick heating</b>	Heats from cold to ready to use (7–37 °C) in approximately 2 hours (including 1 hour to fill the pool)
<b>Smokeless heating</b>	No smoke to bother your neighbours
<b>Hand made in Finland</b>	Our products are handmade in Askola.

# REXENER *Aurora*

## HIGH-QUALITY HOT TUB WITH A UNIQUE HEATING SYSTEM

Rexener Aurora heats quickly and easily with our advanced Rexener Bioheater water heater. No need to chop firewood. Just press the button, and the pool will heat up in less than two hours – including the hour it takes to fill the pool! Consistent water temperature – no more water that is too cold or too hot in the pool.

The snow-white Arctic White pool invites bathers to slip into its waters. LED lighting illuminates the pool water beautifully. The pool has a unique water-saving design. With a filtration system, UV light and chemicals, you can use the same water several times. Aurora is made of Finnish wood and insulated with polyurethane sheeting throughout.

# REXENER *Silence*

## TO THE SOURCES OF TRADITION

Rexener Silence respects the traditions of hot tubs in many ways. The high-quality dark fibreglass pool handmade in Finland is lined with dark grey Finnish spruce panels. Simple, atmospheric, and so very beautiful. This quiet hot tub brings you close to nature.

The Rexener Wood Heater wood stove exudes northern nature. The blaze of the flames is reflected in Rexener's glass reindeer antlers. Rexener Wood Heater, which utilises the thermal energy of wood very efficiently, heats the hot tub's water at a rate of up to 15 °C per hour. Silence is made of Finnish wood and insulated with polyurethane sheeting throughout.

# REXENER *Cooler Bench*

## COLD DRINKS STRAIGHT FROM THE BENCH

Now you won't run out of cold soft drinks! The magical Rexener Cooler Bench makes the everyday wonderful! Abracadabra and a 330ml beverage pops out of the bench right into your hand. With this bench, you are guaranteed to surprise your friends. What could be better than enjoying a cold drink on a hot summer day!

The bench's patented technology magically lifts a 330ml can into your hand. The bench does not require any electricity or batteries; cold drinks placed into the bench will remain cool for a long time, even in hot weather or in the sauna. There is an incredibly high-quality cold space that holds up to 12 pcs of 0.33 l cans at a time inside the bench.

The bench is a Finnish innovation that is also manufactured in Finland. The colour is stylish Rexener Grey, which also matches perfectly with the Rexener hot tubs. The dimensions of the bench are (W x D x H) 114cm x 37cm x 47cm.

# REXENER *Bioheater*

## HEAT YOUR HOT TUB IN AN INSTANT – SUITABLE FOR ALL HOT TUBS

Rexener Bioheater is the most efficient hot tub heater on the market. Rexener Bioheater is the only heater that can heat your hot tub within two hours. Press the button to adjust the temperature, and Rexener Bioheater will heat your hot tub – or even your 50,000-litre swimming pool.

With Rexener Bioheater, you can keep the water temperature constant. Rexener Bioheater can be installed in all hot tubs on the market. The installation kit included in the Bioheater Gold package has all the necessary parts to connect the heater. Rexener Bioheater can replace a less efficient water heater or an old wood stove.

By using a mass filter and pool chemicals, you can keep your hot tub's water clean for a long time. Rexener Bioheater is also the heat source of Rexener Aurora and Rexener Polar.

Quick heating – heats your hot tub in 2 hours

Heats with the touch of a button.

Year-round use

No visible smoke – can be used in residential areas

Low consumption. Economical.

## TECHNICAL SPECIFICATIONS

# ACCESSORIES

## REXENER INSULATING COVER

The insulating cover is stylish and easy to handle. The insulating cover effectively keeps your hot tub warm and clean. The cover colour is dark grey. The top layer is made from weather-resistant marine grade synthetic leather. Size 189 × 189 cm. Thickness 9.5 cm. Lockable.

## REXENER REINDEER HIDE

Reindeer roam freely in Finland's pure northern nature. The reindeer rearing area covers 36% of the total area of Finland, more than 120,000 km<sup>2</sup>.

The authentic Rexener reindeer hide is a natural and versatile luxury product. The reindeer hide tells the tale of the unique nature of the north. With the help of this hide, you can create a cosy and intimate atmosphere in a place that is important to you. Each hide is a handmade product.

## REXENER STAIRS

Stairs are an essential hot tub accessory. They guarantee easy and safe access to the warmth of your hot tub. Handmade in Finland. The colour of the stairs is Rexener Grey, matching the colour of the hot tubs.

## REXENER GREY WOOD OIL

Rexener Grey is a soluble wax-based wood oil that helps you maintain the wooden surfaces of your hot tub. Wood oil is also suitable for protecting and tinting other wooden outdoor surfaces such as garden furniture, terraces, docks and stairs. Available in two handy pack sizes: 1L and 250ml.

# HANDMADE IN FINLAND

## REXENER HOT TUBS ARE MADE IN FINLAND

We have been raised in the North. We live the bulk of the year in the dark, in freezing and snow-covered Finland. If anyone needs a little warm water and light, it's us. Both things are offered by Rexener hot tubs, which we design and manufacture in Askola, Finland.

Every hot tub we send out is unique. The materials shaped by nature give the hot tub's appearance their own, original touch. Our careful craftsmanship is visible in almost every stage of the hot tub's production, from preparation to the finishing touches.

## HOT TUBS ARE MADE TO LAST

As a guarantee of our meticulous craftsmanship, we offer a 3-year warranty for all Rexener hot tubs. If you have any problems with your product during the warranty period, you can rest assured that our skilled service personnel will visit your hot tub to service it. Your pool will receive a total warranty of 5 years when you register your product with our online service. You can read more about the warranty terms on our website [www.rexener.com](http://www.rexener.com).

We reserve the right to make changes to the products.
